Financial Freedom and**

**ONE  
TAX  
FOR ALL**

Your Right To Financial Freedom

America's wealth flows from the energy, ideas  
and hard work of our Citizens

---

**By The Citizen Statesman  
Stephen D. Redden**

*Note from the Citizen Statesman*

*This comparison of the Income Tax system versus **One For All Tax – National Sales Tax system** was written to inform citizens about a tax system that works. This is not intended to insult or discredit our elected officials or the hard-working government employees at the IRS. We are all citizens and all victims of the Income Tax System.*

The greatest barrier for citizens to retain their wealth and for our nation's economic growth is the income tax!

What is wealth, where does it come from? Politicians and so called economic experts would have us believe that big businesses or big government is source of wealth.

THEY ARE WRONG, the source of our wealth comes from the energy, ideas and hard work of our citizens. Our ancestors worked with their minds, backs and hands to forge our nation; our blood, sweat and tears built the wealth of our nation.

***Businesses don't start businesses, governments don't start businesses... citizens start businesses!***

Our forefathers signed the Declaration of Independence and for eight years our ancestors fought the king of England; sacrificing their lives so fellow citizens could live free from unfair taxes and tyranny.

It was our ancestors that fought and bled on the battlefields, not big business, not big government. We created the government, by the people, for the people.

Then in 1913, our politicians decided to create the income tax. Unknowingly, betraying the American citizens with Article 16, the Amendment giving the government the right to take our wealth... the income tax!

***The government should have no rights, only citizens!***

The 16th Amendment turned out to be our nation's Frankenstein monster; an out of control tax system that targeted citizen's hard-earned money. A tax system that would be the destruction of personal wealth and privacy!

This amendment enslaves citizens by taking an unfair amount of our wealth; tax paying citizens are now the servants, working for the government.

When the government controls our wealth, they control us.

Through income taxes we are oppressed and in fear of the government, creating the unintended tyranny, even politicians and IRS employees are afraid of this monster.

Many families after paying state and federal taxes, are robbed of their wealth, paying 30, 40%, 50% or more of their hard-earned income.

***All Economist agree that income taxes  
are the worst taxes of all.***

Citizens after working long hours, go home to study for a degree or go to work a second job or stay up writing a business plan; all for your family's future. Finally, you get your piece of the American Dream; then the Frankenstein monster of the income taxes shows up for their piece of the action!

Income taxes punish success, steal from the cash flow of our economy, and pry into your personal life and privacy.

We can never truly own property, we are just renters from the government. If you don't pay your income taxes the government can take everything you own.

The Income tax system just does not work, it robs us of our wealth, while falling short on collecting enough taxes to pay our nation's debt.

The Income tax system also steals from citizens and businesses an estimated ½ trillion dollars each year. Citizens have to spend extra time and money cutting through the red tape of the income tax code! Money and time that could go to grow our economy.

Democrats, Republicans, Independents, Tea Partyers, even IRS employees - all Americans can agree, we hate income taxes and we want to keep more of our hard-earned money.

It's time to unleash the wealth of citizens eliminate the broken, outdated income tax system. We need a tidal wave of citizens to insist to their politicians we want just "One Tax For All".

All economist agrees the best tax is a tax that fairly spreads the nations expenses across every segment of our economy to create the lowest rate tax possible. A tax that is simple, a tax that has no effect on our economy. A tax that cannot be used as a political bargaining chip. A tax that will stabilize our economy. A tax that everyone will proudly see it as their duty to pay. A tax that will put the wealth back into the pockets of the citizens.

Think of our nation’s infrastructure as a great highway, a toll road that everyone and every business has to pay to use. A toll road works because it spreads out and lowers the cost to everyone that uses it.

We need a Tax that works like a simple toll road, a national sales tax. States like Florida and Texas are booming, they have no state income taxes, just a simple sales tax. Twenty percent of U.S. Citizens pay no state income taxes, and love it. The sales tax system works. You make a purchase you’ve paid your taxes.

Imagine just “One Tax for All”, you go into the store buy a candy bar and a coke - you paid your taxes; any time you purchase goods and services you pay a low, low, low 5% or less national sales tax. Just “One Tax For All”, no forms, no withholdings, no other taxes.

A national sales tax – “One Tax for all”, everyone and every business, every segment of our economy pays a little something, everyone will have a little skin in the game.

Unleashing the wealth of American citizens begins now, by eliminating income taxes!

“One Tax For All” – national sales tax will return the wealth and power back to the people.

It’s time to replace the broken down, unfixable income tax system with a simple **National Sales Tax System... “One Tax For All”**.

## **What can you do?**

Take out your phone, go to your Facebook, twitter or email and tell your friends about “One Tax For All”!

You can down load this free booklet at: (we don’t ask for money at this site, just your action)

# 20 reasons to have just “ONE TAX FOR ALL”

- Taxes are fairly shifted across all segments of our economy, creating cash flow that will increase GDP by estimated 5% or more
- By evenly and fairly distributing taxes across all business segments and all individuals, “taxes will never have a negative impact on any segment of economy”
- It will be a Low, low, low tax rate of 5% or less, “it will be like giving the middle class a pay raise”
- There will never be income tax for businesses or citizens
- Only one tax, no other federal taxes
- No tax forms or tax returns
- It will protect personal privacy from the government
- Personal success will no longer be punished by Income taxes
- No income withholding system, “business owners will no longer be, at their expense, the nation's tax collectors”
- Eliminates hundreds of the laws
- Eliminates tax courts and tax incarceration
- Eliminates unfair Excise Taxes that target certain industries
- No more late or unpaid taxes
- Eliminate inheritance tax
- Eliminate capital gains tax
- No more tax evasion
- All illegal incomes will have to pay this tax via purchasing goods and services
- No more deductions or loop holes
- Taxes will no longer be used as a political device
- Lastly, balance the budget, and stop our children from getting a nation full of debt.
